## Final edge in long picot

[For this edge, see the explanations there.](#)

This edge is casted off very simply (knit 2 sts, bind off the first on the second, and continue), I insert the beads with a hook about every 5 stitches, you can put more or less as desired. I made 3 long picots in the continuity of the strands on the ground thrush and 1 long pin in the continuity of the leaf motif at its center.

On the one image you see on stitch what should be the picot of the leaf and the 3 pictures down this page you will find the place to put them on thrush. (These images are larger on the tutorial) After the binding off, bring in the threads, wash the shawl, and get fit. If you knit it whit yarn or any other fibers, take the time to block it and put this little shawl to his advantage.
